

ONLINE PROGRAMME 2025

Thursday 16 October 5 - 6.30pm TT time

(Please check the time in your own locale)

Theme: Engaging with Affirming Methodologies

This onLime aims to bring together researchers, academics, community and service workers, laypersons, and policy analysts from a range of disciplines, communities, institutions and sectors to share knowledges, experiences, developments and learnings on research approaches, guiding worldviews or contextual factors that are specific to the Caribbean region and Caribbean peoples, and of value to our global world.

It is intended to inspire critical thinking and discourse on an Affirming Methodologies framework which seeks to center Local and Indigenous voices in the research process, recognize the value of our ways of sharing knowledge, and what we create from our histories and living experiences – *all while we limin*.

ONLINE Programme

5:00 – 5.10 PM (10 minutes)- Welcome and Opening Remarks

Facilitator - Talia Esnard

5.10 – 5.50 PM (40 minutes) – Panel Discussion: “*Engaging Affirming Methodologies in our Research*”
